

Chemical Reporting

Cameron-Cole's chemical reporting services support clients who are subject to federal Emergency Planning and Community Right-to-Know Act and state requirements, including:

- Identifying the type and volume of chemicals on-site subject to requirements
- Preparing and submitting all required information for extremely hazardous substance notification, MSDS reporting, Tier I/II reporting, and other requirements
- Determining the applicability of Toxic Release Inventory (TRI/SARA 313) requirements; conducting threshold and release calculations; and completing/submitting required forms
- Creating programs to institutionalize information gathering, reporting and recordkeeping
