

ARB GHG Reporting Rule Technical Assistance & Verification Services

The California Air Resources Board (ARB) has implemented the Mandatory Greenhouse Gas Emissions (GHG) Reporting rule under the California Global Warming Solutions Act of 2006 (AB32). Depending on the reporting requirements, certain facilities are required to have 2010 emissions report verified in 2011.

Cameron-Cole, LLC is an ARB-accredited verification body for all sectors including General Stationary Combustion, Petroleum Refineries, Cement Plants and Power Entities. Cameron-Cole is very experienced in providing technical assistance and independent verification to clients for mandatory state GHG reporting programs, voluntary GHG programs and for internal tracking purposes. Cameron-Cole is a recognized verification body for the Climate Registry. We are also accredited by the American National Standards Institute for verification of assertions related to GHG emissions and removals at the organizational level.

In providing technical assistance or verification services, we have experience with the following protocols, standards, rules and guidance:

- ARB Greenhouse Gas Mandatory Reporting Rule
- US EPA Mandatory GHG Reporting Rule
- WRI/WBCSD GHG Protocol® and Associated Tools
- ISO 14064-1 (Inventory) Standards
- European Union's Emissions Trading Scheme (EU ETS)
- Industry-Specific Protocols (e.g., IPIECA GHG Reporting Guidelines and the API Compendium) and Protocols-in-Development
- Department of Energy's 1605(b) Revised General and Technical Guidelines
- Guidance From the Intergovernmental Panel on Climate Change (IPCC)
